

Dear Bhanjari, ^{Almora} Almora 11.6.57, ^{Kali Mat}

Bhanjari's opening is very useful - Wm!

It is well to have your letter and to know you well in life. May was mentioned at the time of your ascent to the Almora heaven [and so for several weeks now when we bounced to the holy city set on a hill - we thought of you - wondering whether you were hidden in one of these gallys or houses, or if we should bump across you in the street - or bounce over you. But you are only delayed and in constant service of fellow pilgrims. When one, as you do live in joint family there is nearly always some one or some thing needing our attention and presence and the reminder is that you get through so much service work as you do and so varied. We are glad the operation was successful and we wish your sister a quick and complete recovery - When will you be up here. asks Sri Chow Chh. Wm!

2 severe April May and now June has
been not only cool but at times
actually cold - at least for bare
lotus feet - and occasionally we
have had to wear artificial leather
what shame and disgrace growly
Wuji. She is still unpoisoned and
the black dragon of dis-eased Kali
mata has not come up - not yet
But Chouji (Kharma) nearly pressed
is into Sway on the mats still
Reed a few weeks ago - a small
red dragon or mere dog - six times
his size were on top of him tearing
his throat open. Blue dragon blood
flowed, and a nail on lotus foot
was ripped loose - teeth were
loose and tender and one side of
his face swelled up in a huge
bump. Chou (he could not speak
and did look a bed-ridden guy - But
he did not lose face. - and
the original face is again normal
The body knows its pattern of
reality and nature sets about
healing our reflections unerringly

3 For a few days he masterly adwaita
wallah I went on faste and kept
utterly quiet under our chair.
we had to listen and look. Is
he still breathing or has he
gone to heaven? And to Sri
Silence had healed or was it
Somaadhi? and Chrysi emerged
almost normal and bounding
3rd fully and with a firm and
magnificent. Now he is again
the master beggar - and some had
an insight and perky Bharat Wallah
- We are lovely quiet in the blue
if no visitation - and is the best
of not having to explain. We expect
after the 14th a Greek friend Seela
and perhaps with her and Indian
Dr. and an English Mr. Duke. They
have been taking a party of physical
Deling (which) child (hand capped)
emotional and mentally handicapped
all day. Seela is also Doctor
and has been for months with Dr. Ananta
at the hospital of Vardara, near Mysore.

4 we have had a nice couple of
Kerala lads here from Benaras
University - They managed their own
food and service self dependently
and so were no trouble to Sr. Silence
made however were going to will be being
Buddhist long (May argue) and
pauker - Advaita Vedanta. The
latter is Spanish born in Barce
and lived there for 25 years Spanish
mother and me brother. Father part of
India has passed on and young part has
has been at home in India for a year
or two. Psychically wholly Indian and yet
with Spain in consciousness and blood. Knowledge
a purkha Bharat wallah out yet with this
lets - "What do they know of England who only
England knows?" - so it is by contrast and with
different background that we see things
differently - Such beautiful differences. Wm!
We wish you joy in your writing - develop
that gift of children stories writing - a great
need and scope for this in Child-like Bharat
One advaita writing when it does bubble up
is beautifully different. "We are equal with
the lowest - says Chungi" and so there is no
danger of being under - stood or even re-
cognised. A master in genuine disguise is
not easily recognised by gods. Wm!
